

# Data Sheet

## Gemroll Resilex Swivelling castor Ø100

Code Article 19542  
Code EAN 13 3 14723 019542 1

### Mounting:

Swivelling in steel plate pressed, pivoting on 2 ball-bearing races, thickness of the cap: 2,5 mm, thickness of the cuvette : 3 mm, protective white zinc coating.

### Wheel:

Wheel body in Pantone 298c color polyamide, Ral 7011 color tread in non-marking elastic rubber dipped on the body, waterproof precision ball-bearing equipped of polyamide thread guard.

### Technical datas

Wheel Ø	100 mm
Castor height	133 mm
Bore type	ball bearing
Hub length	45 mm
Type of axis	Bolt TH M8 + nut
Mounting bolt hole Ø	12,5 mm
Castor offset	34 mm
Radius of gyration	84 mm
Tread width	31 mm
Tyre hardness	68 shore A
Maximum load	150 daN
Operating temperature	- 40 à + 85° C
Castor weight	0,79 kg
Standard	NF EN 12532
