

Data Sheet

Gemroll Resilex castor Ø125 Swivelling plate with brake

Code Article 74552
Code EAN 13 3 14723 074552 7

Mounting:

Swivelling in steel plate pressed, pivoting on 2 ball-bearing races, protection of the upper crown by a plastic dust cap, double effect brake with steel pedal
thickness of the plate: 4 mm,
thickness of the cap : 3.5 mm,
protective white zinc coating.

Wheel:

Wheel body in Pantone 298c color polyamide, Ral 7011 color tread in non-marking elastic rubber dipped on the body, waterproof precision ball-bearing equipped of polyamide thread guard.

Technical datas

Wheel Ø	125 mm
Castor height	157 mm
Bore type	ball bearing
Hub length	45 mm
Type of axis	Bolt + nut
Outer dimension of the plate	105 x 85 mm
Center-to-center distance of the bolt holes of the mounting plate	80 x 60 mm
Mounting bolt holes Ø	Oblong Ø9 mm
Castor offset	52 mm
Radius of gyration	125 mm
Tread width	36 mm
Tyre hardness	68 shore A
Maximum load	250 daN
Operating temperature	from -40 to + 85 ° C
Castor weight	1,4 kg
Standard	NF EN 12532
